

Hoist Conversion Chart

Rev. 1/13

This chart is intended to help you quickly find the Lincoln Hoist model that most closely matches that of other suppliers. Please note that these comparisons are the closest available. There are differences in specifications and dimensions between the builders, and one tool will not be an exact match for another. Please confirm the specifications to be sure that the tool is correct for the intended job. If you have any questions, please call.

Lug-All changed some designations in 2009. They re-named their small frame 1-1/2 Ton web strap hoist the Model 25. We left this table alone since most people are more familiar with the old designations. The new numbers are:

Model	Old Lug-All #	New Lug-All #	Little Mule Model
3W08S	2010920111	25A	300A
3W08SB	2010920109	25B	300DA
3W08SU	2010930118	25U	300CA
3W08SHB	2010930137	25HB	300DHA
